

# Juhee Kim

## Curriculum Vitae

Decatur, GA — juhee.kim@emory.edu — (470) 218-2717

### Education

---

**Ph.D., Economics, Emory University** Fall 2023 - Present

Advisor: Juan F. Rubio-Ramírez

**M.A., Economics, Yonsei University** Spring 2021 - Spring 2023

Overall GPA 4.18/4.30

**B.A., International Studies & Economics, Kyung Hee University** Spring 2016 - Fall 2020

Math/Econ GPA 4.00/4.30, Overall GPA 3.98/4.30

### Field of Interest

---

**Macroeconomics, Monetary Policy, Time Series Econometrics**

### Working Papers

---

#### **The Macroeconomic Transmission of Goods and Services Shocks**

Examines how goods- and services-specific supply and demand shocks propagate to aggregate inflation, real activity, unemployment, and financial conditions using a factor-augmented VAR framework.

### Work in Progress

---

#### **The Cost of Alternative Monetary Policy Targets under Sectoral Shocks**

Develops a two-sector New Keynesian model with input-output linkages, heterogeneous price rigidities, and relative demand shift shocks, in order to study whether the divine coincidence remains sufficient in the presence of relative demand shift shocks and to quantify welfare costs of alternative monetary policy rules relative to optimal policy.

#### **The Energy Bottleneck: AI-Driven Growth and Power Constraints in Emerging Asia**

*with Justin Eloriaga and Jung Jae Kim*

Investigates whether electricity supply constraints disproportionately reduce output in AI-intensive industries in emerging Asian economies by using an SVAR and local projections.

### Research Experience

---

#### **Research Assistant for Professor Elena Pesavento**

August 2026 - Present

*Emory University*

Reviewed methods from the literature on Mixed VARs, Pseudo VARs, and large VARs, and currently developing an extension of the existing framework

#### **Research Assistant for Professor Caroline Fohlin**

August 2024 - December 2025

*Emory University*

Data cleaning; some analysis of event studies, structural break tests, and quantile regressions

**A Study on the Estimation of Damages**

December 2022 – January 2023

*SHIN & KIM LLC*

Associate Researcher / Research Consultant

Conducted econometric analyses to estimate damages and compared estimates across alternative empirical approaches as part of a commissioned research project

**Economic Analysis of Damage Assessment**

October 2022 – January 2023

*Korea Credit Bureau*

Associate Researcher / Research Consultant

Conducted econometric analyses to assess group heterogeneity, identify key drivers of attrition, estimate economic damages, and review an economic analysis report as part of a commissioned research project

**Teaching Experience**

---

**Teaching for Principles of Macroeconomics (ECON112)**

January 2026 - April 2026

*Emory University*

Undergraduate course

Served as the instructor of record, delivering lectures and overseeing all course activities.

**Teaching Assistant for Professor Kaiji Chen**

January 2025 - April 2025

*Emory University*

Macroeconomic Theory 2, Ph.D.

Conducted TA sessions on the introduction to MATLAB and review of the problem sets; graded the problem sets.

**Teaching Assistant for Professor Vivian Yue**

August 2024 - December 2024

*Emory University*

Intermediate Macroeconomics, B.A.

Graded the problem sets and midterm & final exams; created new questions and solutions for the problem sets

**Teaching Assistant for Professor Vivian Yue**

August 2024 - December 2024

*Emory University*

Macroeconomic Theory 1, Ph.D.

Graded the problem sets

**Conferences/Workshops**

---

**Georgia Ph.D. Symposium in Macroeconomics and Finance**

Presented

*The Macroeconomic Transmission of Goods and Services Shocks*

April 13, 2026

Emory University

**Mini Workshop in Applied Macroeconomics**

Presented

*The Macroeconomic Transmission of Goods and Services Shocks*

April 3, 2026

Emory University
